Challenge

01

Changing customer wishes

- Bring books online
- Free information on the internet
- Added value
- Content integration

Challenge

02

Inflexible content landscape

- A system for every purpose
- Not enough insight
- New propositions
 - → time and cost intensive

Solution

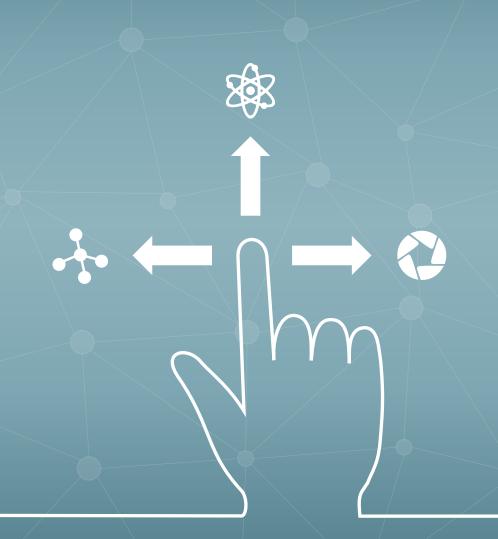

One System

Simplified work process

Normalize content (XML)

Project Life Cycle

2018

Proof of Concept

One magazine
One workflow
Multiple output
channels
Analyze stakeholders

2018

Implementation

Support all business units Connect all systems Provide business information 2020

Exploration

Set goal:
'Improve connection of chain integration with customers'
Product Selection

2018

MVP

One business unit
One workflow
Multiple output
channels

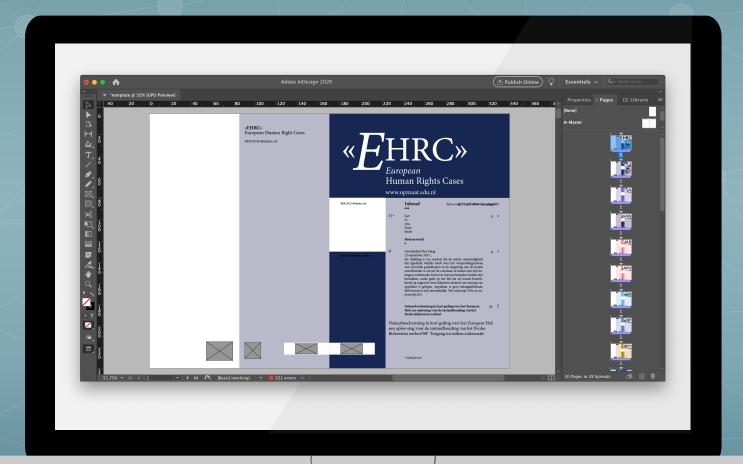

2019

Continuous Improvement

Evaluate
Design
Configure
Analyze

AGILE PROJECT MANAGEMENT

Agile project Management

- One Project Room
- Show progress to whole organization
- Company wide roadmap

COLLABORATE

Collaborate

- Discuss project approach internally
- Talk with other publishing houses

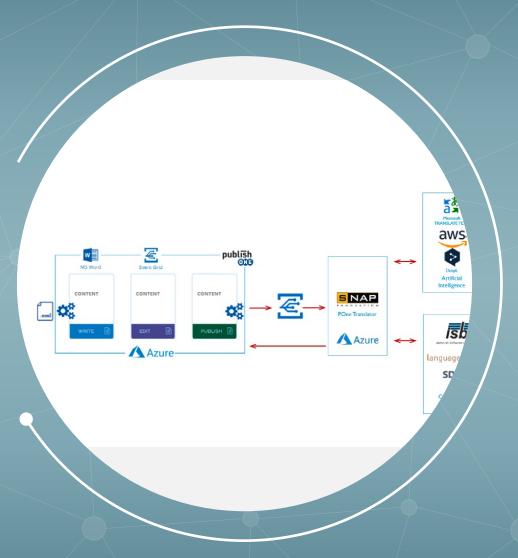

AUTOMATE

Automate

- Interface with adjacent solutions
- Reduce manual work by introducing Hybrid CMS

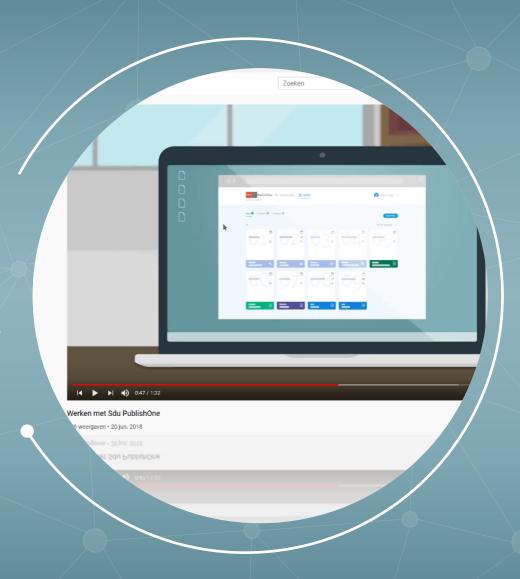

CHANGE MANAGEMENT

Change Management

Don't: statement about new system and work processes

Do: present new set of tools (CMS, instructions, service) and we will make this a success together. Explain why, not what.

Project Achievements

- More then 1800 users creating content for books, magazines and online
 - daily online **news** published in 30 different themes
 - standardization, e.g. 5 magazine templates support 60 titles
 - all content in one XML format for third-party customers
- In 2019 an average of 700 document changes a day
- Completely working in the cloud
- Reducing license overhead for enterprise systems
- Active monitoring progress against SLA with business intelligence
- Minimizing errors and re-work with validation
- Increasing productivity and output frequency
